SIMPLIFYING SMART BUILDINGS

A SMARTER WAY TO SECURE YOUR SPACE

PBC Technologies is a registered Verkada Partner and Solution Installer. Verkada is a fully integrated hardware and software solution that strengthens safety and simplifies security ownership. Their suite of connected devices provide enterprise organizations with meaningful insights into the health and safety of their environments. In the future, we'll deepen our use of machine learning to continue building technology that protects people, places and privacy at scale.

Video Security
Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time. No NVRs, DVRs or on-prem servers to manage. Cameras feature built-in onboard storage with up to 365 days of retention.

Access Control
Manage doors, credentials and users across sites at ease with global access and active directory integrations.

Alarms
Catch and respond to break-ins with cloud-manage intrusion detection and 24/7 professional monitoring.

NEW
Intercom
Answer calls, grant entry and secure entrances from anywhere with Verkada's cloud-managed video intercom.

Sensors
With a collection of eight onboard sensor readings, monitor for the health and safety of all environments.

Verkada Guest
Personalize the check-in experience for all types of visitors while integrating with cameras and access control.
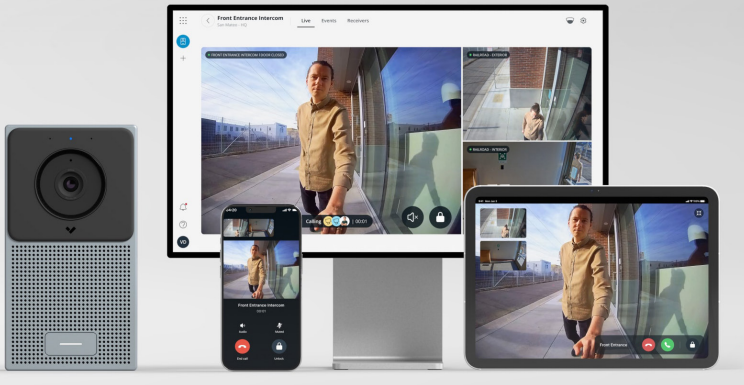

Strengthen Security Simplify Management

Verkada Command
Add ten, hundreds or thousands of devices to Command, Verkada's cloud-based management platform. By aggregating data across devices into a centralized dashboard, Command provides users with a complete picture of what's going on across sites so teams can respond to incidents quickly and effectively.

Users can securely access Command from any browser for device, or through Verkada's top-rated mobile app (available on iOS and Android.)

Key Benefits

- Unlimited user seats at no additional cost
- Customizable level of site permissions
- Access to v top-rated mobile app
- Automatic updates and new features
- Monitor, save and share from one screen
- Unlimited cloud archiving

With hybrid cloud technology, there are no trade-offs in reliability and flexibility. We can help you with a solution that scales limitlessly and is effortless to use.

When it comes to your building security, you can not afford to have a second rate system and a poor install. At PBC Technologies we pride ourselves in being Enterprise Security Solution trained professionals. We take into account not only the surveillance system but also the network planning and installation to support the system, which is often times overlooked.

The new standard for enterprise security. With hybrid cloud technology, there are no trade-offs in reliability and flexibility.

Replace obsolete equipment with technology that's smart, secure and easy to manage.

What is hybrid cloud Video Storage?

Cameras
- Built-in onboard storage; No NVRs or DVRs
- Bandwidth friendly (20-50kbps in steady state)
- Single Ethernet cable (PoE) to Operate

Cloud (AWS)
- Seamless access to all cameras
- Unlimited storage for Archived Clips
- Secure HTTPS/TLS encryption
- 30-days cloud backup included

Software
- Intuitive browser-based user interface
- Modern user authentication (SAML 2.0, 2FA)
- No plugins or downloads required

About PBC Technologies

PBC Technologies is a reliable and trustworthy partner for your business, with a mission to break down the barriers of digital transformation. Our intuitive and scalable solutions are designed to be cost-effective, high performing, easy to maintain, and generate returns on intelligence for your business.

One of our greatest strengths is the ability to provide a single-source vendor experience for connected building systems and devices, which reduces wiring and installation costs, configuration time, and facilities expenses. This streamlined approach saves you time and money while ensuring that all of your systems work seamlessly together.
